

# Mukesh Kumar

Full Stack Web Developer

## Overview

Full Stack Web Developer with hands-on experience designing, developing, and deploying responsive web applications. Proven ability to independently build and host complex platforms including professional media platforms, multi-vendor e-commerce systems, and full-featured e-commerce websites. Experienced in delivering client-facing business websites with a strong focus on clean UI, performance, and usability. Solid foundation in PHP, Laravel, modern JavaScript frameworks, RESTful APIs, and database-driven architectures, with an emphasis on scalability, maintainability, and real-world production readiness.

## Skills
