Professional Summary

Full Stack Developer with hands-on experience building scalable web applications using Laravel, React.js, Next.js, PHP, and MySQL. Experienced in developing real-world platforms including professional networking systems, multi-vendor e-commerce applications, and business-focused web solutions.

Skilled in REST API development, authentication systems, real-time communication features, responsive frontend development, and database-driven architectures. Strong understanding of modern web technologies and production-focused development practices with the ability to independently build and manage complete full stack applications.

Technical Skills

Languages	JavaScript, TypeScript, PHP, HTML5, CSS3, Sass
Frameworks & Libraries	Laravel, React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Framer Motion
Backend & APIs	REST APIs, JWT Authentication, WebSocket, WebRTC, Axios, cURL
Databases	MySQL, PostgreSQL, Supabase
Tools & Platforms	Git, GitHub, Vercel, AWS (Basic), phpMyAdmin

Experience

Independent Full Stack Developer | Self-Employed | 2022 – Present

- Designed and developed full stack web applications using Laravel, React.js, Next.js, PHP, and MySQL.
- Built scalable frontend and backend systems including authentication workflows, admin dashboards, vendor management systems, and RESTful APIs.
- Implemented real-time communication features using WebSocket and WebRTC technologies.
- Developed responsive user interfaces using reusable component-based architecture and modern frontend technologies.
- Worked on database schema design, API integrations, application workflows, and production-oriented development practices.
- Built and deployed multiple portfolio and business-oriented applications independently.

Projects

SkillVilla — Professional Media & Networking Platform

- Developed a professional networking and media-sharing platform with real-time communication features.
- Implemented user authentication, profile management, posts, stories, communities, and job/freelance workflows.
- Built real-time chat and communication features using WebSocket and WebRTC.
- Tech Stack: React.js, Redux, Laravel, PHP, MySQL, JWT, Axios, WebSocket, WebRTC, Bootstrap

ShopHub — Multi-Vendor E-Commerce Platform

- Built a multi-vendor commerce platform with vendor dashboards, product workflows, and order management systems.
- Implemented authentication systems and role-based access control.
- Integrated API-based workflows using cURL.
- Tech Stack: Laravel, PHP, JavaScript, MySQL, Bootstrap, cURL

VK Salon — Appointment & Business Showcase Platform

- Created a modern salon showcase and appointment booking platform.
- Developed responsive frontend architecture and administrative workflows.
- Integrated Supabase for remote PostgreSQL database and cloud storage management in a Vercel-hosted application.
- Tech Stack: Next.js, TypeScript, Tailwind CSS, PostgreSQL, Supabase

Education

Bachelor of Technology — Computer Science

Sri Sai College of Engineering & Technology (PTU) | 2018 – 2022

Training

PHP Web Development Training

4-Month Industrial Training Program | 2022
